Subject: RE: Search

Hi,

Bill Dowling is the only primary in 353...but you might look at 349/5-9 and 353/31,99 and 122. If you don't find anything there, you might try consulting Bill.

Good luck,

Melissa

Subject: Search

Hi Melissa,

I have an application 09/844840 (PG Pub 20030164902)----which is a flat moldable HDTV display which uses columns molded together (they include ferro-electric liquid crystal display lenses which shift light onto a prism or an FLCN lens above or below it). Since each column is independent, a defective pixel can be replaced by replacing only a single column.

If you have any areas to search---please let me know.

thanks for your time

Brian
